

Student's Name: _____

1. Describe the pattern you see in your graph.
2. What is the height of the largest peak? (Make an approximation from the graph)
3. What is the approximate height of the smallest peak? (Make an approximation from the graph)
4. Are we in a time of low or high solar activity? (explain)
5. Do you think the number of sunspots this year will be more or less than last year? (explain)
6. Predict when the next solar maximum/solar minimum will be?
7. What is the least/greatest numbers of sunspots observed during the solar maximum?

Least	Greatest

8. What are the least/greatest numbers of sunspots observed during the solar minimum?

Least	Greatest
