DESIGN YOUR EXHIBITION BELOW

GUIDING QUESTIONS TO ANSWER AS A TEAM

Why and how did you select your object or site? What were some of the reasons for or against selecting the object or site?

What is the focus of your museum exhibition?

What planning went into the creation of your exhibition?

What difficulties did you consider during the creation of your exhibition? (no gravity, radiation as a barrier to long-term preservation, efforts to clean up space debris in LEO, etc.)

Why should your object or site be protected and preserved?

Who should protect and preserve it?
